EXPERIENCE

Utility Warehouse — *Software Engineer*

NOVEMBER 2022 - ONGOING

Develop microservices within the Energy domain.

Go, gRPC, Docker, Kubernetes, Kafka, PostgreSQL, GitHub Actions

Kalido — *Backend Developer*

JUNE 2022 - SEPTEMBER 2022

Developed microservices as part of an agile team. Led an initiative to improve code standards. Created a generic library for stream handling to incentivise code reuse.

Go, AWS, RabbitMQ, Redis, GitHub Actions, gRPC

MostRides — *Cloud Engineer*

FEBRUARY 2020 - MAY 2022

Developed microservices and maintained Linux server environments. Created an in-house service monitoring solution. Provided valuable architectural input in collaboration with other senior developers.

Go, Python, MongoDB, Redis, RabbitMQ, Jenkins, AWS, Ansible, Docker

TrouDigital — *Team Lead Web Development*

OCTOBER 2019 - DECEMBER 2019

Lead a project concerned with third party API normalisation and graphical representation.

Go, Vue.js, DigitalOcean, Docker

EDUCATION

University of Southampton, UK — *BSc Computer Science*

OCTOBER 2018 - MAY 2022

Dissertation thesis: **Performance Analysis of Revealing Load Balancing Algorithms for Distributed Real-Time Data Exchange Systems.**

Diploma: **Second Class Upper Division (2.1)**

SKILLS

Go, Rust, Python, JavaScript
Haskell, Elm, C/C++, Java

Docker, PostgreSQL, Redis,
MongoDB, RabbitMQ, Ansible

AWS, DigitalOcean,
Kubernetes

Problem solving and quick
learning

Mentoring, communication,
and collaboration

AWARDS

Academic Excellence Award
upon high school graduation

1st Place in the National
Olympiad in Informatics,
Dominican Republic, 2018

LANGUAGES

English (fluent)

Russian (native)

Spanish (conversational)
